The friend who gave me this recipe for glove paste is famed for her beautiful hands, which, at middle age, are those of a dimpled child. She never justs water on her hands but once a day, and this is at night, when her hands are thoroughly scrubbed with castle soap and very hot water. Afterward she removes the spigot from the basin and replaces the soapy suds with water which she allows to run over her hands with very cold. She then plasters her hands with the paste. It is needless to remark that the remedy is very uncomfortable, but the result is worth the trouble.

There was a recent departure of a young man from New York on his first ocean voyage. The traveler in question is a wife and humorist, but to the writer's knowledge he has never been known to be cruel, tasteless, or brutal in his use of the sense of humor. Nevertheless, it occurred to some of his friends who mistook these attributes for wit to send to the young man's cabin live mice, canary birds, a monkey, a lobster—and, in fact, a taxical filled with things useless and troublesome to a traveler—things which would suffer and give discomfett and cause were and give discomfett and cause were jest; and whose husband was an inveterafte joker, in an open and frank way.
